

Heating Policies

#	Policy title	The Government of Jersey will...
HT1	Supporting low-carbon heating systems and home insulation	Provide a subsidy to enable both householders and commercial businesses to transition to low-carbon heating systems. The scheme will run from 2022.
HT2	Update building bye-laws	Bring into force legislation that updates current building regulations and sets increased energy efficiency and carbon emission standards of new and existing domestic and commercial buildings and prohibits new fossil fuel boilers being installed in any property after 1st January 2026.
HT3	Energy Performance Certificates	Develop and introduce legislation by the end of 2024 to make both domestic and commercial Energy Performance Certificates mandatory at the point of sale and rental, with minimum standards being brought in sequentially from 2026. Government will also ensure that Energy Performance Certificates are displayed on public buildings by 2025.
